‘THE’ SUV.

What’s that?

Just a title? No.

It’s a new standard. The only one that matters.

A universal constant.

And here’s the thing about universal constants.

They are definite. Undisputed. Uncontested.

For the rest of time. Period.

THE DESIGN

How do you improve on something that's already great? Well, you deconstruct it and build it back from the ground up. Only better. The short overhangs combined with a wider stance, the upright A Pillar with the flat windshield , the presence is even more commanding and when you see it, you'll know why it's called 'THE' SUV.

FORM AND PRESENCE

In the presence of ‘THE’ SUV, everything else looks lacklustre. From the External Hinges, Handlebars to the Tailgate mounted spare-wheel, every little detail on the Thar Roxx gives off an air of boldness. The Thar Roxx takes what was already iconic and elevates it to new heights - the wheelbase is longer, Flat, solid and smooth surfaces everywhere you look, The Thar Roxx is unmistakably a Thar and undoubtedly ‘THE’ SUV.

DUAL-TONE METAL ROOF

The Dual-tone Metal Roof pays homage to the Thar adventure aesthetic, with a sleek black matte finish. But it’s there for more than just looks. The roof is solid metal and is as sturdy as it gets. It’s easy on the eyes, strong to the touch and ready for anything.

C-SHAPED LED DRLS

We dare you to break eye-contact - Because once you're in its gaze, it gets harder and harder to look away. Like two crescent moons illuminating the night, the new C-shaped LED DRLs are a mesmerising addition to the front look of the Thar Roxx. And to complete the effect, on the rear are added equally iconic and instantly recognizable taillamps.
